

RESOLUTION 2020-06

A RESOLUTION AUTHORIZING THE USE OF THE COMPETITIVE SEALED PROPOSAL PROCUREMENT METHOD FOR SELECTING THE SOLUTION AND SERVICE PROVIDER FOR WASTEWATER FLOW MONITORING SERVICES

WHEREAS, pursuant to Tenn. Code Ann. § 12-3-1207 the City may use competitive sealed proposals rather than competitive sealed bids when the City adopts a process for the use of competitive sealed proposals and determines that the use of competitive sealed bidding is either not practicable or not advantageous to the City; and

WHEREAS, the City passed Ordinance 2019-24 on August 13, 2019, authorizing the use of the competitive sealed proposal procurement method; and

WHEREAS, should the City choose to pursue conducting its own competitive process for establishing the basis of pricing pursuant to sealed submittals and published legal notice, then City staff requests authority to use the competitive sealed proposal procurement method for determining which service provider to recommend for award of wastewater flow monitoring services; and

WHEREAS, the Board of Mayor and Aldermen find that the use of the competitive sealed proposal procurement method is advantageous to the City because qualifications, experience, and competence are more important than price in selecting the recommended solution and service provider, and because there is more than one solution to the needed purchase and the competitive sealed proposal procurement method will assist in selecting the responsive solution and responsible service provider that would best meet the City's needs.

NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF MAYOR AND ALDERMEN OF THE CITY OF FRANKLIN, TENNESSEE, AS FOLLOWS:

Should the City choose to pursue conducting its own competitive process for establishing the basis of pricing pursuant to sealed submittals and published legal notice, then the City is authorized to use the competitive sealed proposal procurement method pursuant to the standards set forth in Municipal Code § 5-504 for determining which solution and service provider to recommend for award of wastewater flow monitoring services because qualifications, experience, and competence are more important than price in selecting the recommended solution and service provider, and because there is more than one solution to the needed purchase and the competitive sealed proposal procurement method will assist in selecting the responsive solution and responsible service provider that would best meet the City's needs.

IT IS SO RESOLVED AND DONE on this ____ day of _____, 2020.
