Re: 2027 Wilson Pike, Franklin, TN

Request for denial of services

Date: June 22, 2015

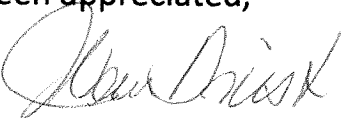

Paul,

Thank you for all of your time and help exploring the possibility of joining the city of Franklin. After our last meeting it became obvious that there was no viable alternative to sewer service from 2027 to the City. Having reached that conclusion would you please provide us with a letter denying services to the property.

Should anything change during our efforts to sell the property please feel free to contact us. Franklin has always been our preferred choice.

Your help has been appreciated,

Pete Van Driest
