## PURPOSE / DESCRIPTION OF REQUEST

Addition of new Staff Engineer 2 to Capital Projects Division of the Engineering Department. This new engineer will manage some of the many on-going and future capital projects.

## SERVICE IMPLICATION

There are only 2 engineers in the Engineering Department with the full-time assigned responsibility of managing the City's many capital projects. The addition of a third full-time project manager would allow the Engineering Department to better manage the City's capital projects.

## PURPOSE / DESCRIPTION OF REQUEST

Purchase of new 4-wheel drive vehicle for Traffic Operations Center (TOC) personnel. With the recent addition of a second traffic engineer and field personnel, there are often times when multiple staff members need to be in the field at the same time but at different locations. The total cost includes outfitting the vehicle with safety lighting and additional equipment.

## SERVICE IMPLICATION

With the recent addition of new staff members, there is often a need for TOC personnel to be in the field at the same time but in different locations. With the current and ongoing workload of both the TOC and Engineering Department staff, the Engineering Department has kept a 15+ year old vehicle, which was intended to be replaced in 2015, in service to meet the transportation needs of both TOC and Engineering staffs. The purchase of this new vehicle would finally allow this older vehicle to be taken out of service.
