PURPOS	E / DESCRIPTION O	F REOUEST					
This request would reclassify our current Human Resources Generalist (Pay Grade G) to a Benefits Manager. The Human Resources Generalist in the Risk/Benefits division has evolved over time and taken on many new responsibilities within the department. Some of those tasks include implementation of Kronos, timekeeping, FMLA/benefits administration and more. On a daily basis, the City has employees and retirees that have various insurance and/or Kronos questions and the Human Resources Generalist has taken on a role to meet the demands of their daily concerns. By creating a Benefits Manager position in HR, it will allow for more flexibility and an opportunity to have a backup for various job duties. A reclassification to Benefits Manager is the next step up for the HR Generalist position. The annual salary is TBD awaiting classification by our pay consultant, Steve Thompson.							
	SERVICE IMPLICATI	ON					
SERVICE IMPLICATION This request will greatly improve the workflow within the department and allow Human Resources to continue providing quality service to employees and citizens.

PURPOSE	/ DESCRIPTION O	F REQUEST					
This request is to purchase cloud based software that will allow tracking and storage area for all certificates of insurance. The system can allow multiple users from different departments to track requested/submitted certificates for their own respective projects. This will also allow vendors to input their certificates of insurance electronically and automatically kick it back to vendor if required information is missing. It will also allow us to set up standard insurance requirements per project, per event or per contract based on scope. Those affected departments include but are not limited to: Engineering, Communications, Purchasing, Legal, Parks and Risk Management. There is also a storage feature that will allow us to keep track of submitted certificates per project, event or contract.							
	ERVICE IMPLICATION	ON					
This enhancement will be helpful for incomplete work or lawsuit. This software can standardize our requirements and allow users to spend less time analyzing and sending insurance requirements.

This request would replace furniture in the lobby area that is outdated, over burdensome and obsolete. In the HR department obby area, we currently have mixed pieces of furniture that do not match. It is our goal to make the entryway more professional as it is a well-visited department for both employees and citizens.
