**Re: Engineering Services Proposal – Revision 2 (Force Main Design)  
Holiday Court Sewer Pump Station Replacement  
Franklin, TN**

Dear Patricia:

In our onsite meeting to review pump station siting on Friday, February 3, 2017, representatives from the Wastewater Department indicated they would like to see replacement of the existing force main included within this project scope. It currently is not included and our tasking was limited to survey of centerline of the force main and preparation of a simple profile for TDEC approval purposes. Mark Hilty attended this meeting and instructed us to proceed with preparation of a scope change to include design and topographic survey services for the replacement of the force main. The current force main is approximately 1,100 linear feet in length.

Based on the information from the meeting with Water Management staff, it appears the scope of services required for this change is as follows:

**Design Phase Services**

- Increase scope of topographic survey services to include the force main currently residing inside an existing PUE from the existing pumping station to the discharge manhole located in Royal Oaks Parkway.
- Develop plans and technical specifications to include:
  1. New force main routing.
  2. Force main plan and profile for the replacement force main.
  3. Piping, valves, appurtenances and connection to the existing manhole for the new force main.

All other services included in the previous scope remain unchanged.

Hethcoat & Davis, Inc. proposes to provide the scope of services identified and will make every effort to devote the manpower and resources necessary to insure timely completion of the design. Based on the anticipated scope of services, we propose fees as follows:

❖ Design Phase (Force Main)	\$3,760
❖ Force Main Topo Survey	<u>\$2,140</u>
❖ Total Add for this revision	\$5,900

If this proposal is acceptable, please prepare a standard City agreement for our signature and approval.

We sincerely appreciate the opportunity to work with the City of Franklin and to present this proposal for providing professional services. If you should have any questions or require additional information, please call.

Sincerely,

Keith Davis, PE  
Secretary
