Light Industrial (LI) Zone

(17) LI—Light Industrial District

The purpose of the Light Industrial (LI) District, hereinafter referred to as the “LI District”, is to provide for industrial uses that have minimal exterior movement of vehicles and goods. Uses shall be restricted to activities that are safe and not a nuisance because of dust, fumes, noise, odor, refuse matter, smoke, vibration, water-carried waste, or other adverse effects on surrounding uses. The LI District shall provide open space, landscape, and buffering in order to achieve desirable site development.

- Permitted Uses Include:
 - Day Care
 - Offices
 - Funeral Homes
 - Restaurants

INDUSTRIAL FLEX

The Industrial Flex design concept provides locations for institutional, light industry, office, and research and development uses, with supporting local commercial uses. Industrial Flex development is characterized by low-scale buildings, some of which may have large footprints. Some of these areas generate less vehicular traffic than regional commerce areas and may be found along more minor thoroughfares. Conversely, some of these uses involve extensive exterior movement of goods and trucks that require measures to control adverse environmental and visual impacts.

The areas and uses within this design concept should be protected to support a diversified economy. However, heavy industrial uses are not encouraged.

- Permitted Uses Include:
 - Day Care
 - Offices
 - Funeral Homes
 - Restaurants

Ordinance is
heading**

The Future of Medicine

Advanced Prosthetics

- Potential Use Conflicts
 - "Manufacturing"
 - Fitting and Therapy

3D Printing

- Higher demand for power than typical Commercial space

- Considered both “Clinic” use and Manufacturing

Proposal

Add Clinic to the “LI” Zone
