Comments/Questions:

- ♦ Is the Thompson Alley Trail dependent on sidewalks on Lewisburg Avenue, and why can't the trails be done all at one time instead of segment by segment?
- ♦ Most of the money is from multi-family developments. What kind of park is best for that type of project? Quadrant 1 has almost \$5 million and other quadrants have much less.
- ♦ The parking areas at Bicentennial Park can be used for special events. It would have to be paved to be used for every day parking. It is in the floodway. DFA had asked if the area could be used for bus parking. Restrooms will be constructed in that area.
- ♦ Regarding Greenway and Trail Harlinsdale to Chestnut Bend, it would be wise to get a longer contract before investing in a project that could potentially close the privately-owned trail.
- ♦ Request to keep ROW of Old McEwen multi-use trail and connect crosswalk from Breezeway all the way to Liberty Park as well as trail on Oxford Glen up to the public trail. Connect to path at the back end of Mars and provide a decent crosswalk for Mars.
- ♦ The Pilgrimage Festival exposed some problems at Harlinsdale.
- ♦ Tuck Hinton work will reveal how to deal with overlapping programs, etc.

Process Moving Forward:

- ♦ Board was asked to have their top ten rated projects handed in by the end of the day, Monday, November 5.
- ♦ One last special work session to review Stormwater, facilities, parking facility, and any other items will be held Monday, November 12 @ 2:00 p.m.
- ♦ In November will get back on financial modeling, and at the end of this year or the first of the year 2019 will talk about setting priorities.
