Dr. Jordon Shaw, IT Director

**SUBJECT:**  
Statement of Work with Presidio Network Solutions Group, LLC for Parking Structure Capacity Project, COF Contract No 2017-0360

### Purpose

The purpose of this memorandum is to provide information to the Franklin Board of Mayor and Aldermen (BOMA) concerning the statement of work on the parking capacity project with Presidio Network Solutions Group, LLC. This is an agreement with Presidio on services they will provide to help the COF IT Department setup and install the parking capacity system at the 2<sup>nd</sup> Ave and 4<sup>th</sup> Ave parking garages.

### Background

The City of Franklin IT Department worked with Presidio to setup and install the parking capacity/counting system at both City-owned parking garages. This system allows vehicles to be counted as they enter and exit the parking structures, allowing us to display the number of available spaces to our public.

### Financial Impact

This agreement cost \$23,419.42, which is within the budget of this project.

**Recommendation**

Approval of this statement of work was granted by the City Administrator under authority granted by BOMA.
