**DATE:** July 11, 2017

**TO:** Board of Mayor and Aldermen

**FROM:** Eric Stuckey, City Administrator  
Paul Holzen, City Engineer/Director of Engineering  
Jonathan Marston, Assistant Director of Engineering

**SUBJECT:**  
Update on Downtown Parking Capacity and Management Study (COF Contract No. 2016-0230)

### **Purpose**

The purpose of this memorandum is to provide information to the Franklin Board of Mayor and Aldermen (BOMA) concerning the current status of the Downtown Parking Capacity and Management Study.

### **Background**

On August 9, 2016, the BOMA approved a professional services agreement (COF Contract No. 2016-0230) with Volkert, Inc. for the Downtown Parking Capacity and Management Study. The Volkert team has worked closely with City staff to determine the existing parking inventory and projected future parking needs in the downtown area. Several public and stakeholder meetings have been held to help the project team understand parking in downtown Franklin.

At this point in the study, City staff and the team at Volkert would like to provide the BOMA with a status update, including:

- Existing Parking Supply and Demand,
- Projected Future Land Use in the Downtown Area, and
- Projected Parking Demand and Need,

Ultimately, the project team will use this data to identify short, mid, and long-term improvements and policy changes that the City may utilize to address parking needs in the downtown area.

### **Financial Impact**

There is no financial impact at this time.

### **Recommendation**

No formal recommendation is made at this time. Staff appreciates the opportunity to present this information to the BOMA.
