**File #:** 18-0193, **Version:** 1

---

**DATE:** February 27, 2018

**TO:** Board of Mayor and Aldermen

**FROM:** Eric Stuckey, City Administrator  
Kristine Tallent, Assistant City Administrator / CFO  
Joe York, Director, Streets Department  
Brian Wilcox, Purchasing Manager

**SUBJECT:**

Sole-source purchase from Wavetronix of Provo, Utah of traffic signal vehicle detection equipment for stock in the total amount of \$44,660.50 for the Street Department (\$45,000 budgeted in 110-83641-43110 for fiscal year 2018)

**Purpose**

The purpose of this procurement is to purchase for stock certain vehicle detection equipment for the City's traffic signal system. This purchase does not include installation since the equipment is to be installed by City Streets Department Traffic Division employees.

**Background**

City Purchasing Policy allows for the following category of sole-source purchases valued at or greater than \$25,000 not to require individual authorization by the Board of Mayor and Aldermen (but which shall be reported to the Board): Purchases of items necessary to maintain, expand or improve a manufacturer-specific system already in use by the City and that requires interconnectivity of and/or communication between the component parts, so long as the product manufacturer representative has stated in writing that the vendor is the sole source available to the City of Franklin, and so long as the vendor has stated in writing that the quoted pricing is the lowest municipal unit pricing available at that time and in the foreseeable future for the quantity indicated.

As the City adds or replaces vehicle detection equipment for the City's traffic signal system, the new equipment must be manufactured by Wavetronix in order for the equipment to communicate properly with the existing system. Wavetronix is the manufacturer and sole supplier of the vehicle detection equipment that is the subject of this procurement, and has indicated in writing that the quoted pricing is the best pricing available at this time and for the foreseeable future for the quantities indicated.

**Financial Impact**

The traffic signal vehicle detection equipment needed for stock is in the total amount of \$44,660.50. The Street Department Traffic Division budget for fiscal year 2018 allocates \$45,000 out of the General Fund for

the purchase of certain traffic signal vehicle detection equipment. The amount of this purchase is \$339.50 (0.75%) under budget.
