DATE: November 12, 2019

TO: Board of Mayor and Aldermen

FROM: Eric Stuckey, City Administrator
Mark Hilty, ACA Public Works
Michelle Hatcher, Water Management Director

SUBJECT:
Third Quarter 2019 Wastewater Collection System Activities Summary

Purpose

The purpose of this memo is to provide information to the Franklin Board of Mayor and Aldermen (BOMA) concerning maintenance and inspection activities performed in the City's wastewater collection system.

Background

Per the May 10, 2016 settlement agreement between Harpeth Conservancy and the City of Franklin, the City will create and report to BOMA a summary of the previous quarter's activities, including the amount of infrastructure inspected and assessed, feet of pipe cleaned, and repairs made. The attached table presents a summary of these activities.

During the third quarter of 2019, Water Management staff have performed inspections and cleaning of approximately 79,000 linear feet (LF) of sanitary sewer line, equating to about 3.6% of the collection system. Inspections and subsequent maintenance of manholes totaled 386 and 17, respectively. The number of inspections performed in the third quarter of 2019 is 3.7% of the manholes in Franklin's system. In review of these and other activities, Water Management staff has performed proactive and reactive inspection and maintenance tasks at point locations at a rate of over three deployments per day and has inspected/maintained over 2,700 LF/day during the third quarter.

Financial Impact

This report does not create any anticipated financial impact(s).

Recommendation

Staff recommends review and approval of this Quarterly report for City record.
